ELEVATE YOUR TRADING SKILLS

Welcome to The Master Trader Programme, a comprehensive training designed to mentor you in advanced techniques of Technical Analysis. This programme not only enhances your chart analysis skills but also deepens your understanding of various price action methods and advanced technical studies, crucial for effective market trading.

Who Is This Programme For?

This course is ideal for individuals already familiar with the basics of technical analysis and eager to delve deeper into the subject. It provides a structured approach for those looking to expand their knowledge and regularly apply advanced techniques to their trading strategies.

Why Choose The Master Trader Programme?

Our programme focuses on equipping you with the skills and knowledge to navigate the complexities of the financial markets confidently. By refining your existing skill set and integrating advanced techniques into your trading workflow, you can improve your profitability and reduce risk, ultimately enhancing your financial intelligence.

WHAT YOU WILL LEARN?

What You Will Learn:

- Advanced Chart Analysis: Master the art of reading and interpreting charts to make informed trading decisions.
- **Price Action Methods**: Learn various price action techniques to navigate different market conditions.
- **Technical Studies**: Use advanced technical studies as supporting tools for market trading.
- **Trading Strategies**: Develop and implement strategies for positional and swing trading.
- **Risk Management**: Refine your skills in risk management to enhance profitability and reduce trading risks.
- Programme Highlights:
 - **Comprehensive Training**: Gain in-depth knowledge of advanced technical analysis techniques.
 - **Practical Application**: Learn to plan and execute trades across different market conditions.
 - **Income Generation**: Utilize positional, swing, and intraday trading strategies to create a reliable income source.
 - **Skill Refinement**: Integrate advanced technical analysis into your trading process to improve outcomes.

CONTENTS:

LEVEL - I

- Market Structure
 - Market Structure is often referred to as Price Action. We refer to this study as market structure because it's how the whole market moves. Understand the trend and the anticipated moves and then you can add other criteria to your trade qualifiers.
- The Modern Application of Dow Theory
 - The Dow Theory is a fundamental principle of technical analysis that is widely used to identify the overall trend of the stock market. It was developed by Charles H. Dow in the late 19th century.
- In-depth VPA Analysis
 - VPA is integral to comprehending the strength or weakness behind price movements. By analyzing the interplay between price and volume, traders gain insights into the intentions of market participants, allowing them to anticipate potential trend reversals and continuations.
- Support & Resistance Find Strong Zones

 Support and resistance levels are important points in time where the forces of supply and demand meet. These support and resistance levels are seen by technical analysts as crucial when determining market psychology and supply and demand.

LEVEL - II

- Moving Averages:
 - Advance Concepts:
 - COMA
 - SLOPE ANALYSIS
 - HUMP & SAUCER
 - LOOK BACK PERIOD
 - TRADE & NO TRADE ZONES.
- Trendlines & Pivot Points:
 - Using Trendlines like a Pro. Advanced Techniques to Draw Trendlines. Find Trades using Trendlines.
 - Pivot Points to find the market behaviour
- Candlesticks Charts:
 - What is in the Name?
 - Understanding the Important Candle Patterns.
 - J Hook, Dumplings, Frying Pans, Kickers.
 - Trading with Gaps:
 - Seller / Buyer Gaps

I have been with Bharat Jhunjhunwala Ji's ProRSI for three years now. His passion for passing down knowledge is amazing. I have learnt so much and have become a much more confident investor. My decisions are knowledge based and while I have made profits, I have also learnt a lot on risk mitigation. Would recommend this course to all - freshers as well as those with a few years of experience in stock market. Like Bharat Ji says, IF YOU THINK EDUCATION IS EXPENSIVE, TRY IGNORANCE!!

ProRSI is the complete and Best course for Technical Analysis. I started my trading journey from scratch with ProRsi. Now I can analysis charts confidently and can take trades independently. Bharat Sir's weekly live sessions gives very deep ananlysis of market and each and every doubts and concept get solved in detail. Bharat Sir is the Best Mentor.

I have been with proRsi for last 3 years. If you want to join the programme one thing I specially mention that you have to dedicate and keep patience while learning programme. Results will awesome.

Ritu Agarwala

My self Akash Taneja I am a full time pilot flying European Sector. I've been part of the Bharat Jhunjhunwala Master Trader Program for the past five years, and it has been an incredible journey. The program, meticulously designed from novice to pro levels, stands out for its effectiveness.

Bharat Jhunjhunwala, an outstanding mentor, brings passion and precision to the world of trading. His strict adherence to method and risk management shattered my preconceptions about stock trading. The program is a transformative experience, making trading feel as effortless as cutting through butter with a hot knife

Not only did it dispel myths, but it also significantly boosted my capital. Bharat's dedication to the subject and his unique approach make this program a first and last stop for anyone serious about trading. I wholeheartedly recommend the Bharat Jhunjhunwala Master Trader Program to anyone seeking excellence in trading education. It has been a game-changer for me, and I look forward to continuing this journey under his mentorship.

The course is very comprehensive, to the point and easy to understand. Bharat sir made sure that they are giving the information in a way that anyone can understand easily. Thank you so much for this great course! This course is just what you need before embarking into your stock market trading journey. Personally liked it a lot and found it very useful. It covers all the necessary aspects of the technical analysis. For early-career traders, enrolling in this course is going to be one of the best decisions to save time and be productive. For established traders, this course probably will be a valuable transforming addition to your experience in technical analysis. I cannot express how great Bharat sir is and the overall content of the material.

The level of knowledge shared and given by Mr Bharat Jhunjunwala is of a excellence bar no one else that I have interacted with. His detailed training through every single subject is amazing and easy to understand if you are prepared to work at it. Its been a eye opener for every student of his and helps everyone collectively move forward at there own pace leaving no one behind. His weekly live sessions is a gold mine of knowledge and experience. Loving every moment of it.
